

13.1

Answer Key

1. V.A.: $x = 2, x = -5$
Hole(s): none

2. V.A.: $x = 3$
Hole(s): $x = 7$

3. V.A.: none
Hole(s): $x = -5$

V.A.: $x = 2$
Hole(s): none

V.A.: $x = 2$
Hole(s) : none

V.A.: $x = -3$
Hole(s) : none

7. $\frac{5}{12}$

13.2

Answer Key

State whether each equation represents a *direct*, *joint*, or *inverse* variation. Then name the constant of variation.

1. joint; 8

2. direct; 4

3. inverse; 5

4. inverse; 4.5

5. direct; π

6. joint; $\frac{1}{2}$

7. inverse; 1.25

8. inverse; $\frac{3}{4}$

9. 500 cm^3

10. 12 in.

11. 100 m^2

13.3

Answer Key

1. rational

2. square root

3. absolute value

4. D

5. C

6. A

constant

quadratic

rational

10. The graph looks like a series of steps, similar to a greatest integer function, but with open circles on the left and closed circles on the right; \$58.
